### 3D HUMMER CONVERTED TO CONTROL LINE

Frank converted his 3D Hummer to control line. It flies really well.

Frank S.

### LIPO BBQ AFTER A CRASH!!

Bill says:

"A control board failure caused the crash. The new Raven will have a larger, more robust control board similar to my other models".

"The batteries were damaged from the crash; the cells were compromised, and the balance wires were shorting. I didn't want to put them in my truck in that condition and risk a fire. So, I intentionally destroyed them".

Dual battery input direct to new Control Board.

## UP CLOSE AND PERSONAL

### Zingali-UFO

Steve would hide his transmitter and let the UFO fly itself just to see people's reactions.

Must have been extra funny with LED lights at night.
