

CHINO VALLEY FLYERS *Photo and Video Journal*

Northern Arizona's Premier RC Club!

CVF Flying Videos for this Issue

-  1 Embry-Riddle student Jeb W flies his Spitfire. [dogsmomma AZ](#) 
-  2 Embry-Riddle student Jeb W flies his turbine Viperjet. [dogsmomma AZ](#) 
-  3 CVF - just for fun...landings, touch-n-go, bloopers. [dogsmomma AZ](#) 
-  4 Random CVF videos taken over the last month. [dogsmomma AZ](#) 

Makin Time for a STUDENT LESSON

Marc landing the Sport Cub

That's Marc N (left) with a potential club member. Usually Marc doesn't use tail draggers for lessons but he said he had to use one of his own planes because the other trainers weren't available.

We Make Time for what matters most. Family, Friends, Music and Horses

Makin Time Ranch

That's Marc's ranch below. The wife and I love all the horses in the area. It gives it a real 'country feel'.

"Got time to breathe, got time for music." - Briscoe Darling

Pics from Marc's Facebook and YouTube websites.

MATT'S ZINGALI UFO

Big "M" for Matt.

Now that I know Matt has one of these the editor might have to get one.

SOME OF THE AIRCRAFT SPOTTED ON 11-01-2023

MORE RANDOM PHOTOS

Al's been playing with non-factory flaperons on his Twin Otter.

Al W.
Ray L.

Ray says he hasn't flown this one for a couple of years.

Bill says he won't fly unless it's above 40 degrees (give or take). Wonder if the same applies for his horseback riding.

AIR TRACTOR

Air Tractor AT-502B crop dusting aircraft on the ramp at Belle Glade Airport, Florida as weather moves in off Lake Okeechobee. Aircraft is shown in profile. The single-engine aircraft has a 52-foot wingspan, three wheels. It was first manufactured in 1987.

ZINGALI FLYING AIRCRAFT

Vertical hand launch

45 degree hand launch

Runway take-off

"This end is up."

Everybody seems to have a Zingali aircraft so I put in my order for a UFO. Steve said you can have any color you want as long as it's all white.

Steve Z.

Coop

Enuf with these UFOs. Where's my dinner?

Italian UFO...can also be flown during the holidays.

RETURN TO HOME

 Don's drone thinks its 'home' is the CVF heli pad and it successfully returned to it. Don said he was linked to 19 satellites for GPS.

MORE RANDOM PHOTOS

3D pilots at work.

Having fun at the ol' flying field.

Resembles the 'walk of shame' but it's called 'glider retrieval after landing'.

'Twist on' spinner fell off during take-off but was recovered by the cameraman.

Larry's Extra 300 ran out of electrons.

COOPER

"SOME KIND OF UGLY STIK"

We suspect Mark might have bought this Ugly Stik used.

Extra 260

BMJR Models

FOR MODELERS THAT LIKE TO BUILD WHAT THEY FLY

BMJR News, volume #111
Building Season is on-the way

Ray made it into the BMJR newsletter.

Couple great shots of GEEF 513 updated for electric power, RC assist. by Ray Landry Unfortunately I lost the specs for the upgrade.

Busy day for arrivals and departures.
