The CVF PVJ (Photo Video Journal) is a "just for fun" publication and should not be confused with the club's official newsletter published monthly by Bob Shanks.

RANDOM PHOTOS

Smoke from prescribed burns (seasonal).

Only the cows know if smoke makes the grass taste any better.

Mike's been flying a variety of planes lately.

Bert and Squirt

Hopefully we'll get to see this one fly at some point.

Paul donates a gallon of weed killer/month.

Bob hasn't been getting out much so he's using a trainer to help get the rust out.

Bob's "go to" plane for whenever a prop falls off in flight.

This is an old trainer that still has Al Weikart's name in it. Bob says he bought it for \$10. That's a good deal considering it still flies.

Bob's prop fell off in mid-flight.

Bob S.

Gary forgot his electric starter. He says the motor is hard to start by hand (not enough compression) because the engine company "doesn't know to fit a piston inside a cylinder".

Just sittin' on the dock of the bay wastin' time OR just waitin' for the engine to cool so it can be hand started.

Al says: "We flew on the new football field. I have gained access to the top level for photos".

Frank Toth Tribute

Our fellow club member Frank Toth passed away in April. Frank was an airplane hobbyist since he was a child. He liked to fly 3D and had a number of 3D planes in his collection. Al Weikart remembers Frank as being "A talented electrical power engineer".

The pilot here has a strong resemblance to Frank.

Shel likes to do a slow flyby to make sure landing gear are down.

Remember to keep the speed up in high alpha before landing the F-15.
