

CHINO VALLEY FLYERS

Video and Photo Journal

Videos

The CVF PVJ (Photo Video Journal) is a "just for fun" publication and should not be confused with the club's official newsletter published monthly by Bob Shanks.

Plane went down with "stuck servo". As a reminder check all controls before take-off.

The ever popular T-28.

These were the only ones holding down the fort on 2/26/2026 (Thursday).

Trying to get the rust out.

"Big Uns" status report:

Bill as usual had no problems with his 3D plane. When Bill talks about helicopters and uses the word "exact" it pretty much means the same as "in the ballpark" for me.

Jerry forgot to plug in one of his ailerons so he had to take all the screws out, plug it in, and re-insert the screws.

The Grears (Mike and Jean) came out to practice for their next flying contest.
